## Professional Summery

- Having **3+** years of professional experience in Analysis, Application Programming, Implementation, development using **Java and J2EE Technology, Tools and Framework**
- Expertise in JAVA, J2EE, Spring Framework, Hibernate, XML, Web Services, Restful Services.
- Knowledge extensively on **Spring framework (Spring Core Container, Spring Web MVC, Spring Transactions, Spring JDBC, AOP, Spring Boot, Spring Security)**.
- Experienced in working with ORM framework such as **Hibernate**.
- Experienced in using **GOF** and **J2EE** design patterns.
- Through knowledge and experience of XML technologies (**DOM, SAX** )
- Using JAX-B, JAX-P, and extensive experience with **DTD's, XSD's**.
- Good knowledge of **Restful Services**.
- Excellent communication, interpersonal and analytical skills and highly motivated team player with the ability to work independently.
- Ability to learn and adapt quickly to the emerging new technologies and paradigms.

## Professional Experience

---

- Currently working as Java Developer in **Wipro, Chennai** from Jan-2019 to till date.
  - Previously worked as Software Developer in **Tech Mahindra, Chennai** from Jan-2017 to Dec-2018
- 

## Skill Set:

Operating Systems	-	Windows
Language	-	Java/J2EE
Language	-	Java
J2EE Technology	-	Servlets, JSP, JDBC
Frameworks	-	Spring Framework (Spring Core, Spring Annotations, Spring AOP, Spring Transaction, Spring MVC, Spring Security, Spring Data, Spring Boot).
ORM Tool	-	Hibernate, JPA
Web Server	-	Apache Tomcat 9.0
Application Server	-	Wild Fly 9.0.2-10.0
IDE	-	Eclipse, Spring Tool Suite(STS)
Design Patterns	-	Singleton, Factory Method, Abstract Factory, Strategy Design Pattern.
XML Technologies	-	XML, XSD, Sax parser, Dom Parser
Java Web Services	-	RESTFUL (Jax-rs with jersey and Resteasy), WSDL
Database	-	MySQL
Tools	-	Maven, JUnit 4, Log4j, Git.

## Educational Qualifications

---

- B. tech(**Bachelor of Technology**) from RGPV 2016

## Project Undertaken

---

<b>Title</b>	- <b>Vesture</b>
<b>Role</b>	- Developer
<b>Team Size</b>	- 7
<b>Database</b>	- MySQL
<b>Duration</b>	- Jan 2019 to till date
<b>Tool</b>	- Maven,Log4j,JUnit.
<b>Environment</b>	- J2SE (OOPs, Exception Handling and Collection),J2EE,Spring Boot , Spring Core, Spring AOP, Spring Tx, Spring MVC, Spring Security, Spring Jdbc, Restful API

### Description :

**Vesture** is a centralized platform where local merchants can sell their products using this platform. In this platform we are going to provide marketplace for both customer and merchant. Where customer can browse the product from the nearby shop and can easily place the order. Customer can schedule the delivery time within the available slots. So, those goods can be shipped to the delivery address within time. **Vesture** is a B2B and B2C application, where numbers of merchants are registered with us, where they can simply showcase their products which are available in the stock and ready to pick. On the other hand customer can select the merchant shop which is nearby to them and can easily place the order.

### Responsibilities:

- Involved in various phases of Software Development Life Cycle (SDLC) of the application like Requirement gathering, Analysis and Code development.
- Experience in developing web applications using SPRING framework.
- Developing User Interface by using JSPs and Involved in Unit Testing.
- Implement task as per as business requirement
- Following Agile(Scrum) methodology and planned tasks for various sprints
- Attend daily Standup meeting, Retrospective meeting and Sprint planning/Review meeting

## Project # 2:

---

### PMS (ProActive Messaging System)

<b>Role</b>	- Developer
<b>Team Size</b>	- 7
<b>Duration</b>	- Feb 2017 - Dec 2018
<b>Environment</b>	- J2SE (OOPs, Exception Handling, Multithreading, and Collection),

J2EE, JSP, Spring, Hibernate, Spring (IOC, MVC, AOP, ORM, Transaction),  
RESTFUL.

IDE - Eclipse,  
Tool - Maven, Log4J

### **Project Description:**

This project provides notification or message to the insured person by checking whether he/she is eligible for the claim or not through the paper or email. Now we are expanding our service by adding text support to our customer. It helps them to get the message on their mobile. It provides insurance of auto, home, life, fire etc. Meanwhile, it is supporting the calculator which will filter the best suitable insurance out of all according to the user-specified input.

### **Responsibilities:**

- Engaged in gathering, analyzing and identifying various individual logical components.
- Involved in Scrum meeting to give status and gather new requirement.
- Implemented JMS so that listener will pick the message from the queue.
- Used design patterns such as Factory, Singleton, and Value Object Design patterns.
- Involved to develop Controller using Spring MVC.
- Exposing and building the Rest Client and Resource.
- Developed DAO classes.
- Develop Persistence logic in Hibernate.
- Involved to write business logic.
- Wrote Associations, mapped tables to Entity's and persisted data to backend by Hibernate Framework.
- Exception Management, Caching, Performance Monitoring, Security of application achieved using Spring AOP (Aspect Oriented Programming) concepts.

### **Declaration:**

I hereby declare that the above-furnished details are true according to the best of my knowledge

**Krishna Kant Gupta**
