About Me

I'M Satish, with 8+ year experience in Web & Mobile - UI / UX design & development. I create user-friendly and appealing application interfaces for Mobile Apps and websites for users, and Adaptive Design layouts to maintain a consistent user experience across the product.

Collaborated with clients to rapidly iterate on custom UI solutions in Adobe XD, Axure RP, HTML, CSS, JS and saving dozens of hours of more expensive development time.

Delivered high quality design docs, Sitemap, User flows, Wireframes, Mockups, High-Fidelity Prototypes
